

Man Yue Conflict Free Statement

- Man Yue takes very serious the allegations that metals mined in the Democratic Republic of the Congo may be making their way into the electronics supply chain; and profits from this illegal mining may be fueling human rights atrocities in the Eastern Region of the DRC
- Man Yue expects our suppliers to comply with the Electronic Industry Code of Conduct and to only source materials from environmentally and socially responsible suppliers. Man Yue has systems and procedures in place to help ensure that our suppliers comply with these expectations; however, due to the complexities of the metals supply chain, we are currently unable to verify the origin for all metals used in our products.
- In support of this, Man Yue will commit to :
 - 1. Trace and map our supply chain for tantalum, tungsten, cobalt, tin and gold
 - 2. Support development of independently verifiable supply chain transactions, when available and credible, to document the routes taken and intermediaries involved from mine of origin to final product.
